In the words of u-mano u-dito:

This track is a celebration of the Open Source Software, the voice is reading a module of the Linux Kernel.

Like the most beautiful bedtime fairy tale it will make you sleep peacefully.

Also the music was written with a piece of code, that's open:

https://github.com/ndr-brt/sc-adente/blob/cb74b0abc9ae77c6fdd0bcc80d51c14100741ee/tidal/records/2020_open_source_lullaby/open-source-lullaby.tidal

"Shared we stand, closed we fall."
